PROFILE SUMMARY

Node.js Developer with 1 year of hands-on experience in backend development using Node.js, Express.js, and MongoDB, along with working knowledge of React.js for building responsive frontend applications. Skilled in developing RESTful APIs, implementing secure JWT authentication, and building scalable applications with clean architecture and performance optimization.

PROJECTS AND EXPERIENCE

Junior backend developer at Applaunch Bangalore Pvt Ltd

May 2025 - Present

- Developed a custom Meditation Builder backend using Node.js, Express.js, and MongoDB, enabling dynamic creation and management of meditation content.
- Implemented secure JWT authentication and scalable REST APIs for user registration, login, and data handling.
- Integrated FFmpeg audio processing to mix ambient sounds and voice, generating final audio based on user-defined frequency.

Web Developer intern at WayEva Innovations Pvt Ltd

Jan 2025 - Mar 2025

- Developed a scalable full-stack web application using HTML, CSS, JavaScript, Node.js, Express.js, and MySQL, enabling students to register, log in, and enroll in 12+ courses.
 - Integrated a secure payment gateway, ensuring seamless transactions for course enrollments with enhanced security and reliability.
 - Designed and implemented a dynamic user profile system, enabling students to manage personal details, edit profiles, and track enrollment status, enhancing user experience.
-
